Art Unit: 1614

Claims 1-58 are presented for examination.

Claims 13, 25, 27 and 31-58 are improper as presented. Claims 13 and 25 do not show differences from original patent by underlining and bracketing. Claims 27-58 must be entirely underlined, as they are new claims to original patent. See 37 CFR 1.173.

Claims 57 and 58 are rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period. Claims 57 and 58 are improperly broadened. Such claims remove the limitation that was relied on for the allowance of the parent application, and thus cannot be removed. (See MPEP 1412.02) specifically removing the limitation "greater than 0.5 in diameter" is impermissible. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.

Claims 1-12, 24 and 26 at present time are considered to be allowable.

Claims 14-23 and 28-30 are objected to as being dependent on a rejected claim.
